

ECO-FILL

**CRA is proud to announce ECO-FILL: Recycled Glass Media
Environmentally Friendly, 100% Post Consumer Recycled
Glass
NO Heavy Metals, NO Crystalline Silica, Low LOI and Moisture**

Technical Data

Specific gravity	2.50
Density:	approximately 80 lbs/cu ft
Hardness:	approximately 6.0 Mohs
Conductivity:	between 230 and 630 mho/cm depending on size distribution
Chlorides:	<.0002%
Shape:	angular to sub-angular
Embedment @ 100 psi:	0.0% to 0.4%
LOI (loss on ignition):	target <0.1%
Softening point:	approximately 1,350° F
% Volatile:	None
Reactivity:	Stable
pH:	N/A
MSDS available upon request
